What do you like most about this course and/or the instructor's teaching of it?

The material covered in this course is applicable to my research, making it extremely valuable to me. The instructor does a great job as he provides a level of clarity that is not always present during the actual class. The powerpoints really help.

What about this course and/or the instructor's teaching of it needs change or improvement?

What suggestions can you offer that would have made this course a better learning experience for you?
